Vitamins to VEGA!

3rd. January. 2025

VITAMIN

01

Recently, Tieling Bright Biotechnology Co., Ltd. obtained the production license for choline chloride and liquid choline chloride feed additives. The production address is No. 09-2, North Chuangye Street, Lao Siping Industrial Park, Changtu County, Tieling City, Liaoning Province. The certificate is valid from 2024-12-30 to 2029-12-29.

AMINO ACID

02

Lysine: Currently, domestic manufacturers' quotations are stable, with 98.5% lysine quoted at CNY10.5-11.0/KG and 70% lysine quoted at CNY5.0-5.3/KG, but actual orders are relatively few. The trade market quotations are stable, but purchases and sales are not active, and end users are less motivated to replenish stocks.

API

03

Doxycycline hydrochloride, mainstream manufacturers limit prices and sign contracts, and delivery deadlines are tight. Domestic and foreign customers are actively inquiring in the market. It is estimated that there will be a wave of shock adjustments before the Spring Festival. Please pay attention to the introduction of new production capacity. The current market transaction is around USD46.5/KG.

FOOD ADDITIVE

04

Recently, according to the export warning of Xiamen Municipal Bureau of Commerce, the Ministry of Health, Labour and Welfare of Japan issued Announcements No. 419 and 420 on Food Safety, revising two regulations on the management of tablets and capsules, aiming to improve the supervision measures on similar products after the injury incident of Kobayashi Pharmaceutical's red yeast rice products.
